DETAILED ACTION

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: None of the references of record teach or suggest layout pattern of a semiconductor device, including arranging primitive cells including circuit patterns of constituent elements of the semiconductor device in an element formation area of the semiconductor device, and arranging at least one fill cell with a diffusion layer and no wiring, in a vacant area in the element formation area of the semiconductor device that is generated after the primitive cells associated with all constituent elements of the semiconductor device have been arranged.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Election/Restrictions

Independent claims 1, 19, and 24 are allowable over the prior art of record. The restriction requirement between species 1 and 2, as set forth in the Office action mailed on June 23, 2006, has been reconsidered in view of the allowability of claims 1, 19, and 24. The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.

Application/Control Number: 10/755,387

Art Unit: 2822

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
